

## Partners in Learning, Perspectives of Parents at East Hamilton Hill Primary School

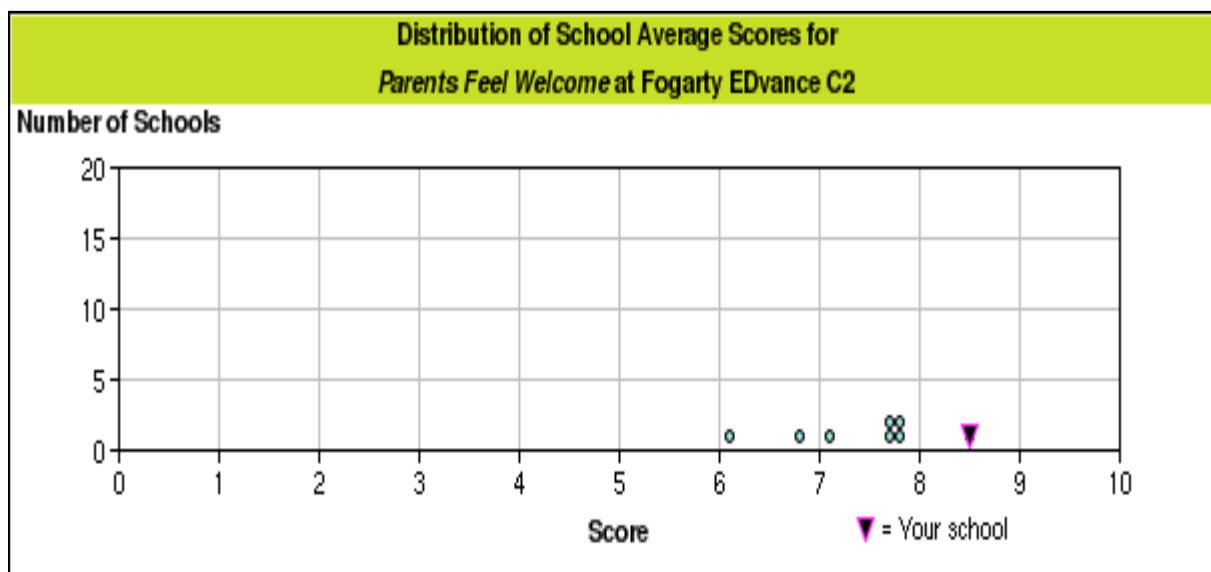

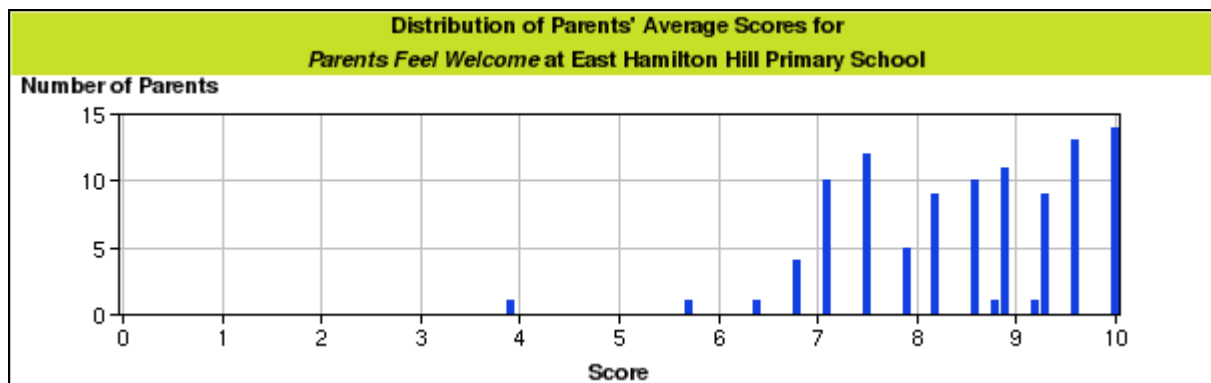

The Partners in Learning Parent Survey is based on a comprehensive questionnaire covering several aspects of parents' perceptions of their children's experiences at home and school. It is based primarily on Joyce Epstein's framework for fostering positive relations between the school and the community. Successful schools foster greater communication with parents, encourage parental involvement in their child's schoolwork, and enlist parents to volunteer at the school and participate in school governance. The survey also provides feedback to schools about the extent to which parents feel the school supports learning and positive behaviour and promotes a safe and inclusive environment.

The survey includes seven separate measures, which were scored on a ten-point scale. The scores for the Likert-format questions (i.e., strongly agree to strongly disagree) have been converted to a 10-point scale, then averaged and reported by question and by topic. A score of 0 indicates strong disagreement; 10 indicates strong agreement; 5 is a neutral position (neither agree nor disagree).
